

Ammunition

Where does Trophy Grade™ Long Range Ammunition excel from Trophy Grade™ ammunition?

Trophy Grade™ Long Range Ammunition is specifically loaded up front with Nosler's AccuBond® Long Range bullet. The AccuBond® Long Range (ABLR) has the highest ballistic coefficient of any bonded, hunting bullet in the industry which allows for less wind drift and reduced drag in long range (400 yards +) shooting scenarios. See the AccuBond® Long Range bullet section for more information.

Unique solution ID: #1033
